

## Experiment No:- 2

### //Use of Audio on web pages using HTML5.

\*\*\*\*\*audio.html\*\*\*\*\*

```
<!doctype html>

<html>

  <head><title> Audio file</title></head>

  <body>

    <audio controls autoplay loop="2">

      <source src="sample.mp3" type="audio/mp3">

    </audio>

  </body>

</html>
```

\*\*\*\*\*audio1.html\*\*\*\*\*

```
<!doctype html>

<html>

  <head><title> Audio1 file</title></head>

  <body>

    <h1>Create webpage to insert audio file,provides multiple source file format</h1>

    <audio controls autoplay loop="2">

      <source src="sample.mp3" type="audio/mp3">

      <source src="sample.ogg" type="audio/ogg">

      <source src="sample.wav" type="audio/wav">

      Your browser not gives support to any given audio format

    </audio> </body>

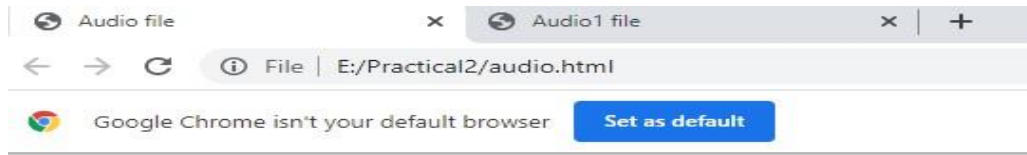

</html>
```

-----
